Join us for Buloke Brick Master Challenge!

Council will be holding our very own Brick Master Challenge in Donald for all our local Lego Masters in August, so don't miss out on this opportunity for your child to get building!

We all know Lego is fun for kids, but did you that it is also a powerhouse for children's development? Here's why:

Cognitive Boost: LEGO stimulates problem-solving skills and sparks creativity. Building intricate designs gives kids a huge sense of accomplishment, boosting their self-esteem.

Communication Skills: As they collaborate on projects, children articulate ideas and learn to work effectively with others. It's a fun way to develop teamwork and share responsibilities.

Mathematical Thinking: Through spatial awareness and structural planning, LEGO enhances mathematical understanding from a young age.

Physical Development: It refines fine motor skills and hand-eye coordination as little hands manipulate those tiny bricks.

Connecting Community: LEGO brings people from all walks of life together, allowing everyone to connect and play.

Date: Sunday 11 August
