

Have Your Say – Home Support Service Provision

Home support service provision has been an important part of Buloke Shire Council's operations for nearing 40 years. Like many other Victorian Councils, Buloke Shire is reviewing the future of service provision for aged care and disability services as the Commonwealth government progressively implements reforms in the national aged care system. Last week at an additional Council Meeting, Council made an in-principle decision to withdraw from the funded role of service provider.

This has initiated a 4-week consultation period. Council has commenced engaging with staff, clients, families, volunteers and contractors and is now coming to you, our community. Please note that until the decision is confirmed, and future transition arrangements agreed, there is no change to the employment status of affected staff or clients. This is an incredibly important decision for our community and there is a range of information available on Council's website

For more information contact Council on 1300 520 520 or email buloke@buloke.vic.gov.au.

Submissions can be made to Director Community Development, Travis Fitzgibbon by email to buloke@buloke.vic.gov.au or by mail to Buloke Shire Council, PO Box 1, Wycheproof Vic 3527.

Please submit your feedback by Friday 17 March 2023

To learn more about the consultation and how you can get involved and to read our media release and Frequently Asked Questions document, please visit <https://www.buloke.vic.gov.au/have-your-say-future-of-home-support-service-provision>.

Have Your Say – Transport Management

Council's transport assets (roads) contribute to the community by allowing people to move safely and conveniently around and through the municipality, enabling the transport of goods and services and connecting people to service centres and other key destinations.

The Transport Asset Management Implementation Plan outlines the management approach to achieving these outcomes, by identifying future demand, planning for optimising the life of these assets and maintaining financial sustainability when planning over a 10-year period.

The plan also addresses continual improvement in the management of the assets and performance monitoring. This Asset Management Implementation Plan has been developed in accordance with Council's Asset Plan, Asset Management Policy and principles of the Asset Management Strategy (Objectives).
