Work Begins on Change Room

3 July 2017

Works will commence this week on the upgrade to the Wycheproof Pool change room facility beginning with the demolition of the old facility.

Council awarded the contract for this project to Noonan Builders at its Ordinary Meeting on 14 June 2017 and has received funding from both the Federal Government (\$200,000) and State Government (\$200,000) for the new change rooms.

“As the old facility is removed there will be a noticeable change in how the sporting precinct in Wycheproof looks. It will be a short term hole in the visual appearance of the area but we will soon have an exciting new facility for all to enjoy”, said Mayor, Cr David Pollard.

Work on the new change facility is expected to be completed in time for the pool season later in the year.
