

MEDIA RELEASE

Maternal and Child Health Service Update

17 June 2016

Buloke Shire Council's Maternal and Child Health Service has undergone some recent minor changes that do not impact on the services provided.

Buloke Shire Council's Maternal and Child Health Service provides ten free Key Ages and Stages medical consultations for all families with babies and young children, from birth to three and a half years of age.

Buloke, like most rural shires, is experiencing ongoing lower birth rates which has required some restructuring to our service delivery. Services will continue to be provided to all service users.

The service will continue to be provided at the following Buloke Shire Maternal and Child Health Centres on the following days of each week:

- Monday - Sea Lake
- Tuesday - Birchip
- Wednesday - Charlton
- Thursday - Donald
- Friday - Wycheproof

Both home and centre visits are available. Appointment is the preferred method.

For information regarding consultation times or to make an appointment with our Maternal and Child Health Services please call 1300 520 520.

You can also call the Victoria-wide Maternal and Child Health Line 24 hours a day, seven days a week on 13 22 29 or visit their website at www.betterhealth.vic.gov.au/health/serviceprofiles/maternal-and-child-health-line-service

End release
